The purpose of this report is to evaluate the validity, operational metrics, and professional standing of his multiple public and private engagements.

2. Logistics Background & 'Highway Angel' Interventions

Rahn transitioned into commercial transport and logistics in the mid-2010s, building a nearly decade-long tenure on the road driving for tier-one national freight carriers, including **WEL Companies** and **Forward Air**. He later leveraged this experience to launch an independent freight transport enterprise, **81 Express Logistics, LLC**, situated out of Southwest Virginia.

Rahn possesses an elite safety profile within the logistics sector, documented as a rare **three-time recipient of the Highway Angel award** issued by the Truckload Carriers Association (TCA). Investigation verified the details of all three distinct roadside interventions:

- **August 2023 (Everett, PA):** While operating for WEL Companies at the Everett service plaza on the Pennsylvania Turnpike, Rahn observed a severely intoxicated operator crash into a stationary tractor-trailer. Rahn systematically contacted emergency personnel and physically contained the belligerent, uncooperative driver to prevent scene evasion prior to the arrival of Pennsylvania State Troopers.
- **Winter 2023 (Ohio Highway Incident):** Navigating through a dense, sub-zero visibility fog bank, Rahn located a disabled consumer vehicle marooned in an active travel lane. The car lacked cell service and contained a mother and three small children. Rahn positioned his semi-truck as a physical crash shield to protect the lane, manually maneuvered the disabled vehicle safely to the road shoulder, and maintained overwatch until law enforcement took command.
- **August 2026 (Salt Lake City, UT):** While driving for Forward Air and walking his German Shepherd at a Utah travel hub, Rahn identified a violent domestic dispute that escalated into a physical assault. Rahn stepped in directly between the attacker and victim, issued commands to back down, and securely sheltered the female victim inside his semi-truck cabin until a secure transit solution arrived.

Root-Cause Context: Public records and interviews reveal Rahn's acute vigilance against impaired and hazardous driving stems from profound personal loss; **one of his six daughters was killed by a drunk driver**.

3. Corporate Asset Mapping & Veteran Advocacy

Investigation into Rahn’s commercial holdings reveals a deliberate integration of for-profit B2B logistics services with structural humanitarian outreach:

- **81 Express Logistics, LLC:** Serving as the core commercial entity, this Southwest Virginia-based operation conducts standard freight shipping, freight logistics management, and B2B supply chain coordination.
- **Boots2Trucks, Inc.:** Functioning as a non-profit division under the operational umbrella of 81 Express Logistics, LLC, this charity addresses veteran homelessness and the national logistics labor deficit. As a U.S. Army veteran, Rahn structured the 501(c)(3) framework to directly equip at-risk, transitioning, or disabled military veterans with structured technical training pipelines, job placements, and the resources required to secure a Commercial Driver's License (CDL-A).
- **Secondary Background Competencies:** In addition to transport logistics, records reveal Rahn holds a degree in Culinary Arts and Restaurant Management. He operated as a master chef and business management consultant, maintaining credentials as a certified food safety instructor and proctor through regional frameworks.

4. Industry, Civic, and Institutional Honors

Rahn’s dual impact on public safety and military veteran reintegration has resulted in extensive validation across regional, state, and federal frameworks:

- **National Industry Nominations (2024):** Rahn was simultaneously advanced as an official nominee for two top-tier transport accolades: the *TCA Professional Driver of the Year* (evaluating absolute safety and professionalism) and the *Citizen Driver of the Year* (recognizing community leadership and off-road citizenship).

- **Regional Driver Honors:** Designated the **March 2024 Driver of the Month** by the Wisconsin Motor Carriers Association, validating his technical safety records while managing interstate carrier routes.
- **High-Tier Volunteer Service Medals:** Conferred with the **Presidential Volunteer Service Lifetime Achievement Award**, alongside the **Congressional Volunteer Service Award** and the **Commonwealth of Virginia Governor's Award of Excellence**.
- **Biographical Distinction:** Inducted directly into the 2024 permanent volume of **Marquis Who's Who in America** for exemplary industry execution and leadership.

5. Fine Arts, Poetry, and Intellectual Property Catalog

A highly anomalous aspect of the subject's dossier is his verified standing within the fine arts, demonstrating high-level execution in creative composition:

- **International Poet of the Year Legacy:** Long before scaling his modern logistics operations, Rahn achieved significant international literary prominence, holding the title of **International Poet of the Year consecutively from 2009 to 2013**. His poetry is preserved across global anthologies and digital registries including Poetry.com.
- **ASCAP Songwriting Credentials:** Rahn is a legally registered songwriter and lyricist with the **American Society of Composers, Authors and Publishers (ASCAP)**. His musical catalog leans toward structured Americana, roots rock, and country, adapting metric rhyme structures into storytelling themes focusing on long-haul transience, military duty, and American rural realities.

7. Investigative Conclusion

FINDING: VERIFIED PROFILE. Subject Keith Alan Rahn presents an authentic, highly anomalous cross-section of high-level trade compliance, literal life-saving highway heroism, structural philanthropic entrepreneurship, and credentialed fine arts composition. His relatively low mainstream footprint is determined to be a natural byproduct of a B2B business structure, grassroots local focus, and trade-specific accolades rather than corporate marketing campaigns. All core facets of the dossier are cleared as factually substantiated.
